I believe I asked Lynn to check into this some time ago to confirm this change in ownership. The company apparently changed hands some time ago? Thanks for handling the paperwork on this Joelle.

On July 30th, we received the annual permit fee payment with a request to change the company name and address. I telephoned Mark Hardman and found out it is not just a name change, but a new company taking over. I informed Mr. Hardman that a transfer would be required and a new RC & surety. I sent the transfer and RC forms to him today. They will be going through the same surety company, so I told him that perhaps a surety rider would be sufficient. He will check into that.
